

Accounting & Tax

A structured accounting and tax function that goes beyond filing returns.

THE PROBLEM WE SOLVE

Your business needs reliable books, timely compliance and a clear view of open items - without discovering issues only at year-end.

When it is relevant

- You need ongoing accounting and tax support.
- You are changing accountant and need a structured handover.
- Transaction volume, headcount or payment channels are increasing.
- You want accounting to connect gradually with reporting and finance support.

What we do

- Bookkeeping, VAT, myDATA and withholding taxes.
- Corporate income tax, annual returns and financial statements.
- Core reconciliations for banks, customers, suppliers and tax accounts.
- Payroll and basic corporate compliance within the agreed scope.

What you receive

- Up-to-date accounting records and compliance calendar.
- Returns and filings within the agreed scope.
- Year-end closing file and annual tax computation.
- Open-items / compliance status where relevant.

Not automatically included

- Historical accounting clean-up.
- Full tax audit simulation or actual tax audit support.
- Complex cross-border opinions, transfer pricing or legal services.
- Management reporting / CFO-lite beyond the agreed package.
