

Finance, Accounting & Tax Advisory for Growing Businesses

Looma organises the accounting, tax and finance function so management has clearer information, stronger processes and practical support for decisions.

THE LOOMA POSITION

A boutique outsourced finance function positioned between the traditional accountant and a full in-house finance department.

Accounting, Tax & Digital Compliance Accounting, tax compliance, myDATA, payroll and digital tax processes.	Finance & Performance CFO-lite, management reporting, cash-flow, budgets, KPIs and financial control.
Business Setup & Advisory Startup Finance & Setup, Business Diagnostic, financial modelling and finance-function setup.	Tax Risk, Remediation & Audit Support Tax readiness, accounting clean-up, AADE simulation and remediation support.
Funding & Strategic Readiness Financial models, funding readiness, data rooms and preparation for banks or investor discussions.	International & Cross-Border Business in Greece, international VAT, market entry and coordination of cross-border obligations.

L.O.O.M.A. Methodology

Learn → Organize → Optimize → Measure → Advance

Ways to work with us

Recurring: Looma Start · Core · Growth · Prime
Projects: Diagnostics · Setup · Readiness · Remediation

WHO IT IS BUILT FOR

Growing SMEs For businesses that have moved beyond basic compliance and need stronger finance organisation.	Startups & Founders For new companies that want finance setup, runway, reporting and readiness from the start.	Complex / Cross-Border For businesses with increased tax, operational or international complexity.
